

Professional SKIN & HAIR CARE

VS

Drugstore BRANDS

More concentrated with quality ingredients, so you use less

Lower quality and amount of essential proteins, vitamins, anti-oxidants and organic ingredients

Guaranteed to be fresh and original product

Could be diverted or knock off of original brand

Gentlest shampoo ingredients are used to create lather

Harsh sulfates used for lather.
Some with a PH level of *Comet!*

Offer a variety of sizes for sampling in most categories

One size, one price, no guarantee it will work

Recommended by true professionals who are experienced in analyzing and recommending treatments for skin and hair

Staff are not trained skin or hair professionals, so offer generalized product recommendations, which more often than not, don't work

Professional Spas & Salons stand behind & guarantee their products

Cannot make this claim with their brands or back it up

Eccotique Spas & Salons recycle consumer beauty-related empties

No option so Eccotique accepts their brands for recycling too!

'Certified Organic' assures the product is made up of 95-100% certified organic ingredients whose performance is not hindered by the other 1-5% making up the product

'All natural' does not mean product is 'Organic'.
'All natural' is a marketing term not regulated by the FDA.
Amount of natural can range anywhere from 5-75%.
